

California OES Weather Threat Briefing

Friday, January 3, 2020
9:00 AM PST

- Day 1 (Fri): High surf and minor coastal erosion will impact Southern CA today.

National Weather Service
*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

01/03/20 - 01/09/20

Friday

- High surf will impact much of the coastline through today
 - Impacts from this high surf may include dangerous beach conditions, beach erosion, and possible damage to coastal structures and piers

Late Friday-Monday

- Additional rain and mountain snow will arrive in far northern California late Friday through Saturday afternoon
 - Impacts are expected to be minor and short-lived
- Moderate to strong winds will develop across the Shasta Valley in northern CA late Friday
- Moderate to strong north to northeast winds possible Saturday night through Monday morning across parts of southern CA.

Tuesday-Thursday

- Additional mountain snow and valley rain can be expected mid to late next week
